CONVERTERS

Unit Converter · Time Zone Converter

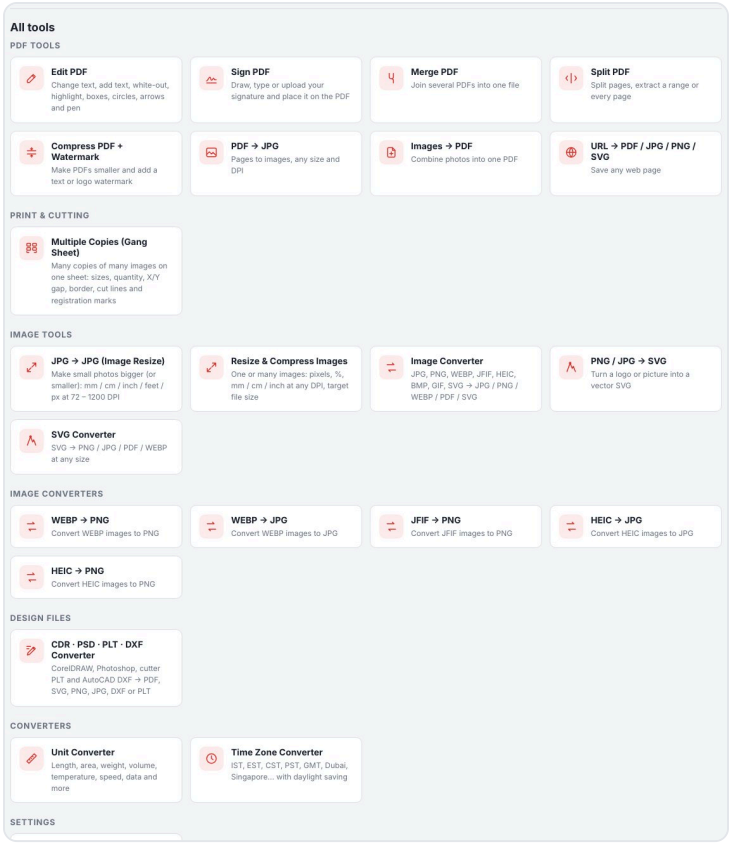

WINDOWS & UPDATES

Right-click convert & updates

OVERVIEW

All tools in one place

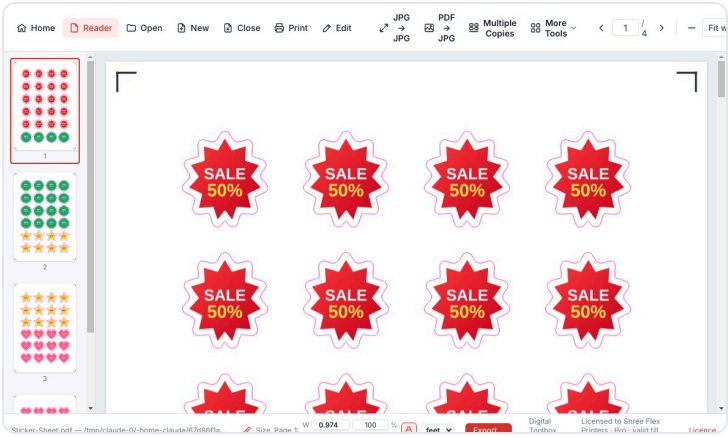

The “All tools” screen — every tool is one click away.

READER & PRINTING

1 PDF Reader

Open and read any PDF, picture or design file.

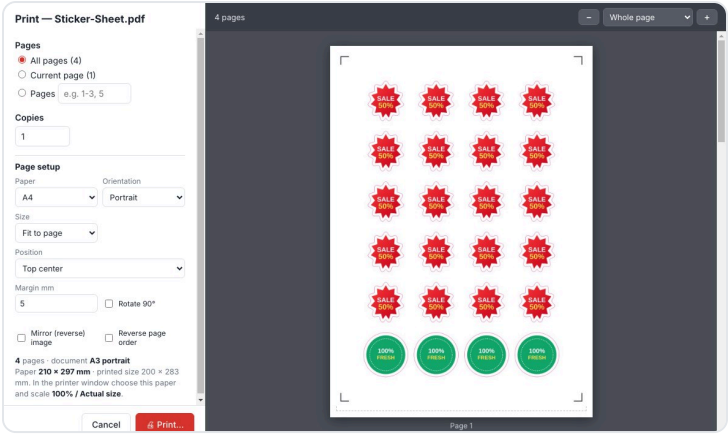

- Opens PDF, JPG, PNG, WEBP, HEIC, SVG, CDR, PSD, PLT, DXF
- Page thumbnails, zoom, rotate, page by page
- Password-protected PDFs open after the password
- Recent files on Home; drag & drop to open

READER & PRINTING

2 Print with preview

See exactly what will print before you print.

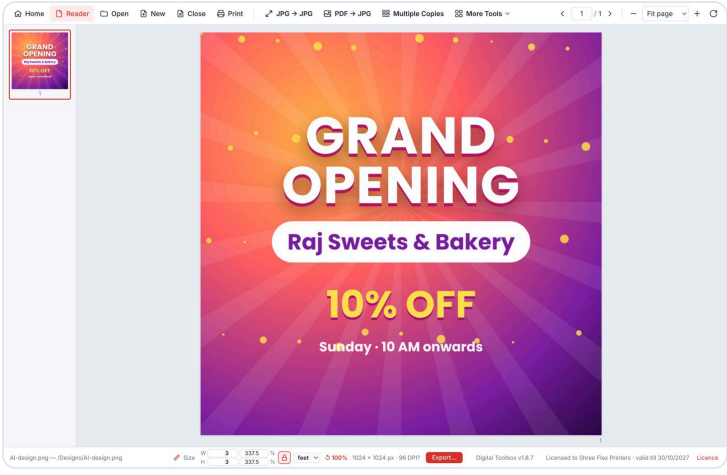

- All pages, current page or a page range; copies
- Paper size, orientation, fit to page or actual size
- Position on the paper, margin, rotate 90°
- Mirror (reverse) print for DTF / sublimation; reverse page order

READER & PRINTING

3 Change size & export

Type the print size and the design follows.

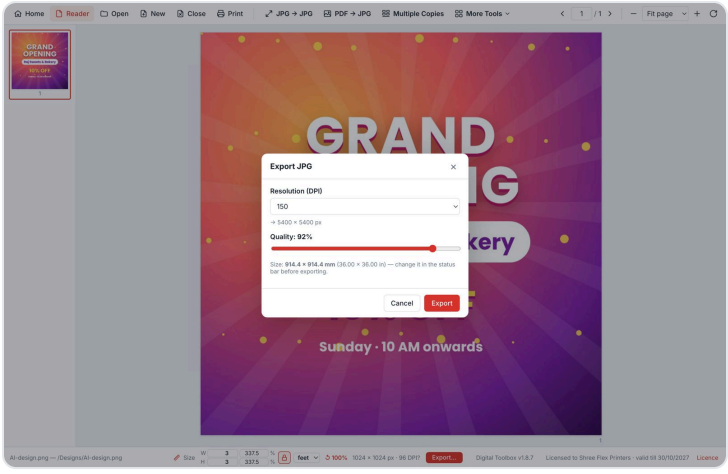

- Width / height in feet, inch or mm; ratio locked
- Here: a poster set to 3 × 3 feet
- Export JPG, PNG, PDF, SVG, DXF for the printer

READER & PRINTING

4 Export at the right DPI

Pixel size is shown before you save.

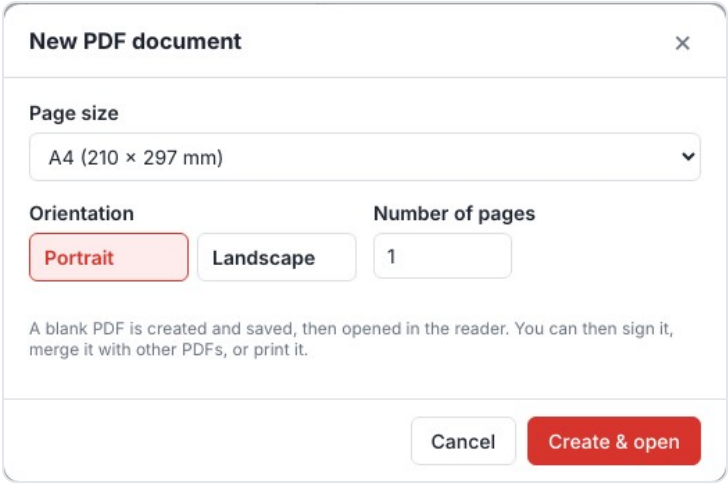

- Choose 150 or 300 DPI
- Exact pixels for the chosen size
- Print-ready file in one click

READER & PRINTING

5 New blank PDF

Start a fresh PDF of any size.

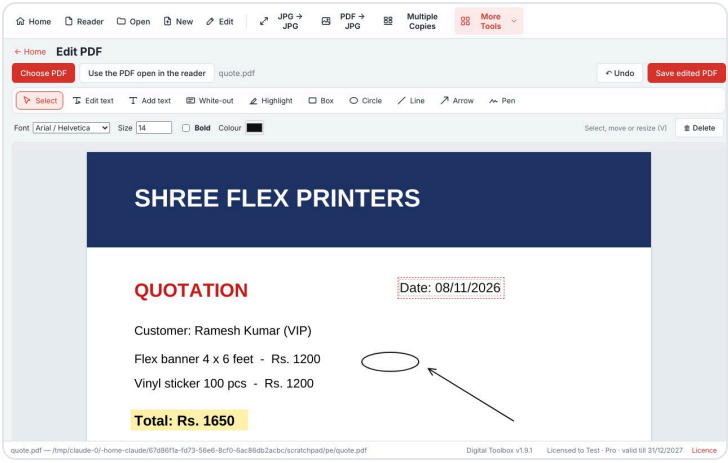

- A4, A3, Letter or your own size in mm / cm / inch / feet
- Portrait or landscape, any number of pages
- Opens in the reader — sign, merge or print it

PDF TOOLS

6 Edit PDF

Change a PDF yourself — no other software needed.

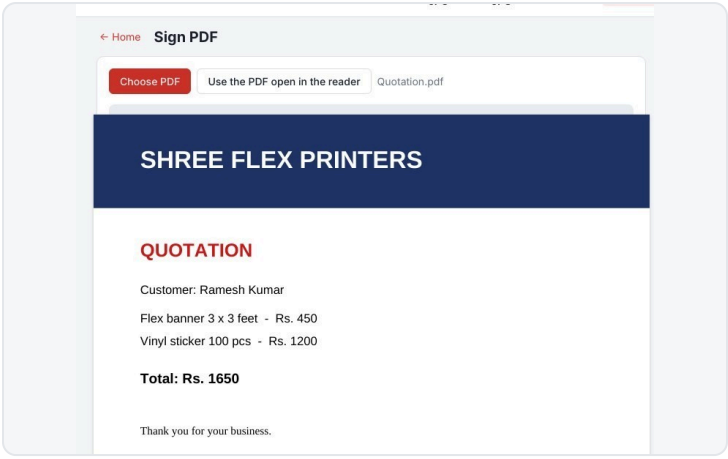

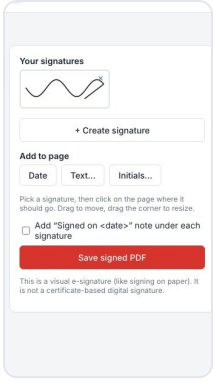

- Change existing text; size, font and colour kept
- Add new text anywhere, Hindi too
- White-out, highlight, box, circle, line, arrow, pen
- Saved as a new “(edited).pdf”; original untouched
- Digitally signed PDFs are protected

PDF TOOLS

7 Sign PDF

Put your signature or stamp on any page.

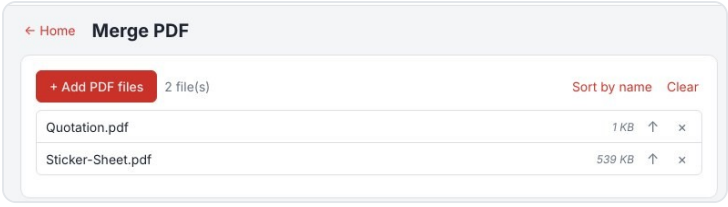

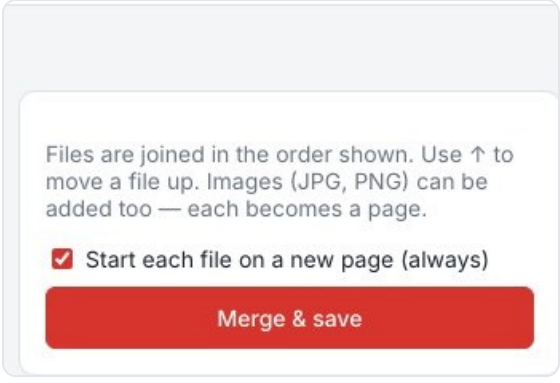

- Draw, type or upload a signature — saved for next time
- Click to place; drag to move, corner to resize
- Add date, text and initials
- Optional “Signed on <date>” note

PDF TOOLS

8 Merge PDF

Join many PDFs into one file.

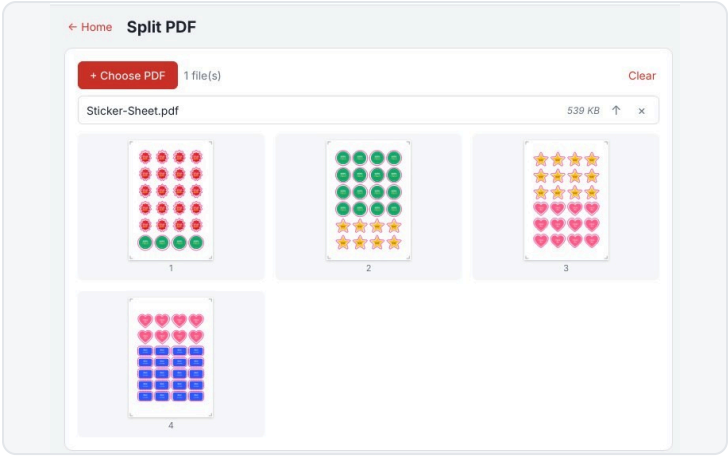

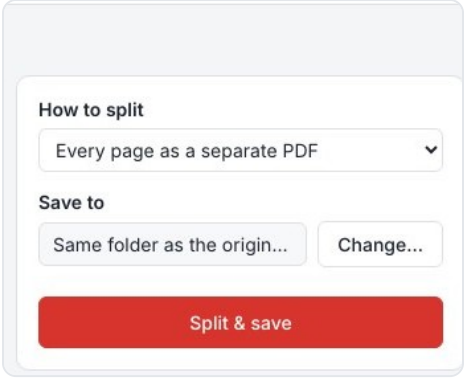

- Change the order with ↑ or sort by name
- JPG / PNG pictures can be added as pages
- Option: start each file on a new page

PDF TOOLS

9 Split PDF

Take a PDF apart, page by page.

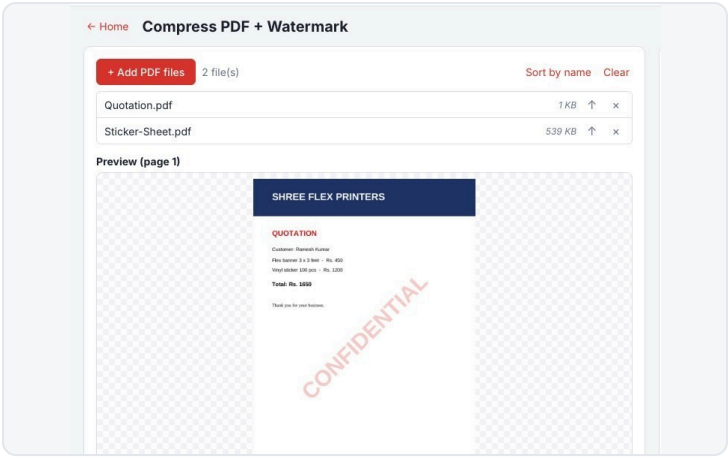

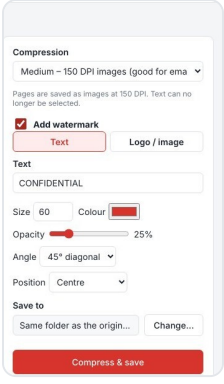

- Every page as a separate PDF
- By page ranges, or every N pages
- Selected pages → one PDF
- Delete selected pages

PDF TOOLS

10 Compress PDF + Watermark

Smaller PDFs, with your name on every page.

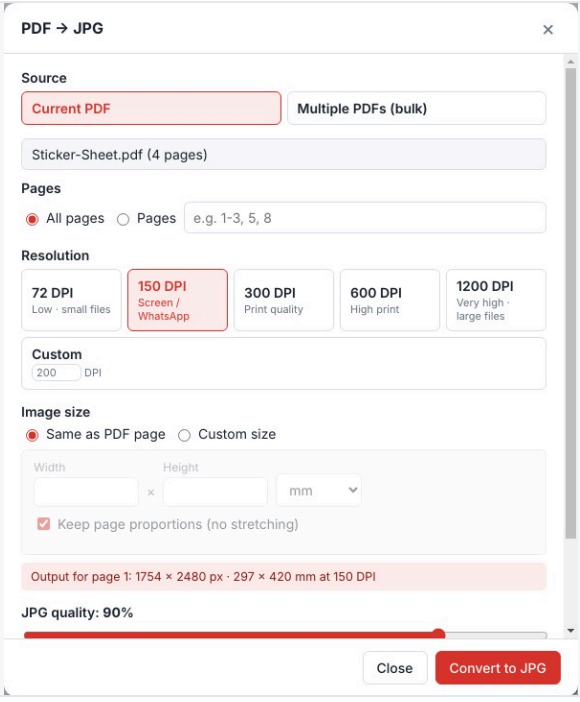

- Light, Medium (150 DPI), Strong (100 DPI) or custom
- Text or logo watermark with live preview
- Size, colour, opacity, angle
- Centre, top, bottom, any corner or tiled

PDF TOOLS

11 PDF → JPG

Turn PDF pages into pictures.

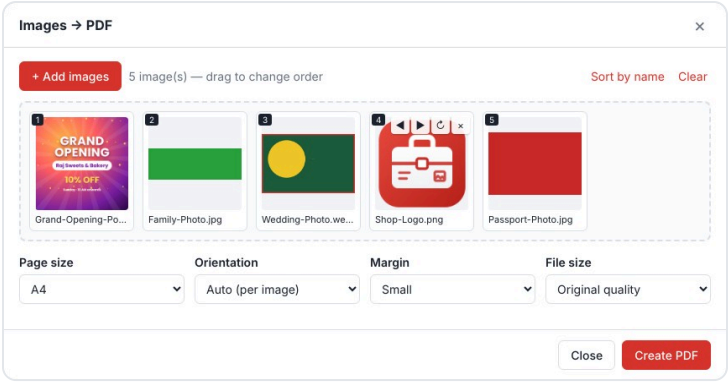

- Current PDF or many PDFs in bulk
- All pages or chosen pages (1-3, 5, 8)
- 72 to 1200 DPI or custom
- Same size as the page or a custom size

PDF TOOLS

12 Images → PDF

Make one PDF from many photos.

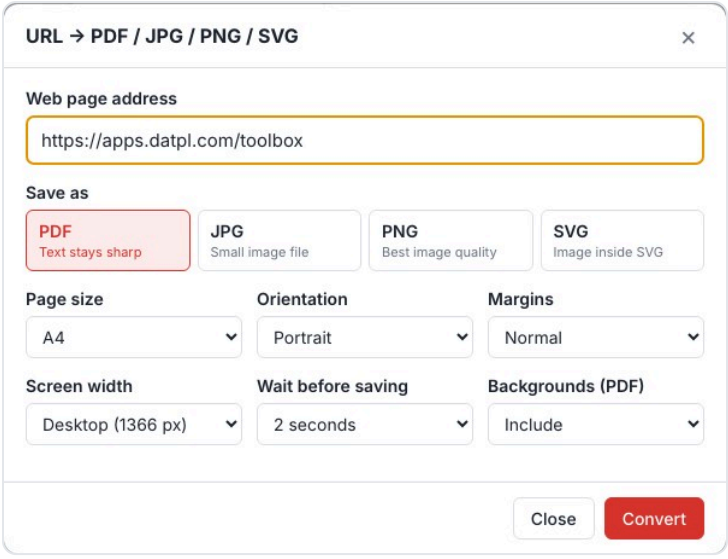

- Drag thumbnails to change the order
- Page size, orientation, margin
- File size: original quality or smaller

PDF TOOLS

13 URL → PDF / JPG / PNG / SVG

Save any web page.

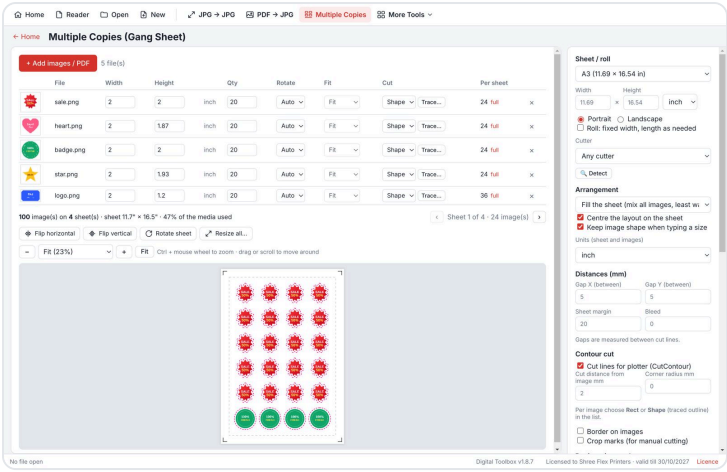

- Type the address; save as PDF, JPG, PNG or SVG
- Page size, orientation, margins
- Screen width, wait time, backgrounds

PRINT & CUTTING

14 Multiple Copies (Gang Sheet)

Many copies of many images on one sheet or roll.

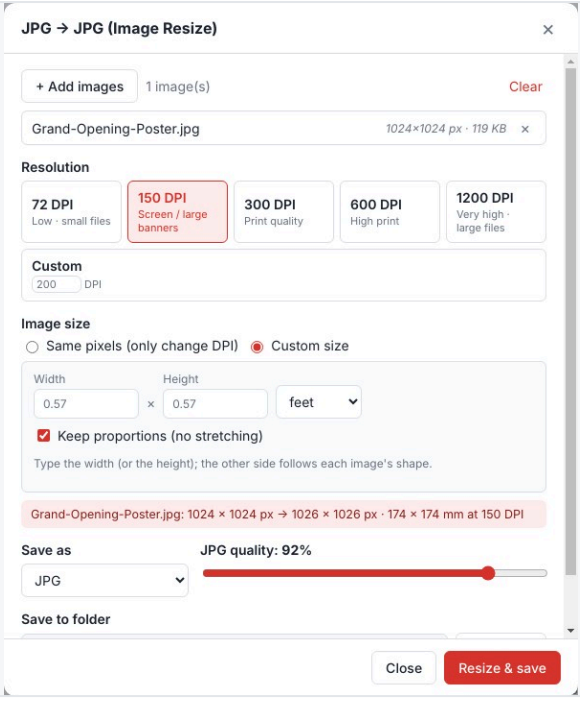

- Size and quantity for each image, or fill the sheet
- Each picture opens at its real size — nothing cropped
- X / Y gap, margin, border, rotate, flip
- Contour cut lines and registration marks
- Detects Graphtec, SkyCut, Summa, Silhouette, Mimaki …
- Print file + cut file (PDF, SVG, DXF)

IMAGE TOOLS

15 JPG → JPG (Image Resize)

Make a photo the exact print size.

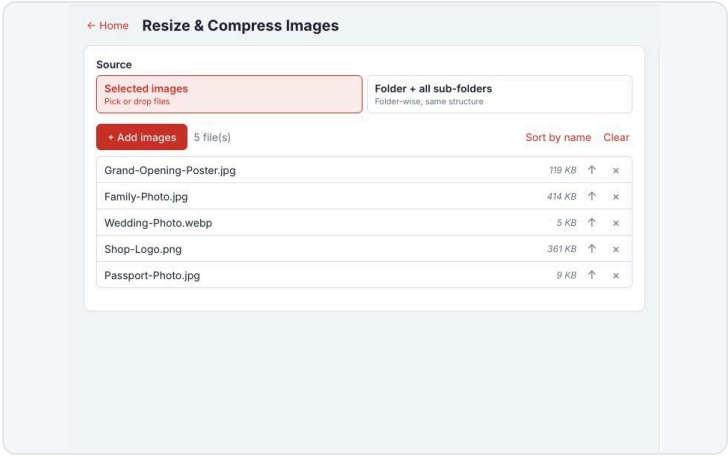

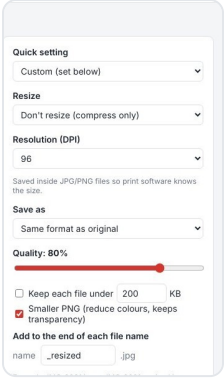

- Bigger or smaller in mm, cm, inch, feet or px
- 72 to 1200 DPI, or only change the DPI
- Output size shown before saving
- Save as JPG or PNG with quality

IMAGE TOOLS

16 Resize & Compress Images

One photo, many photos or a whole folder.

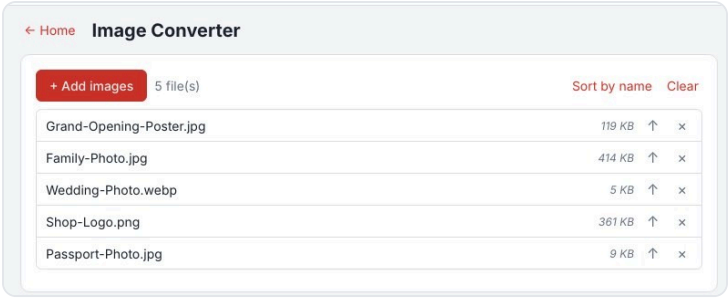

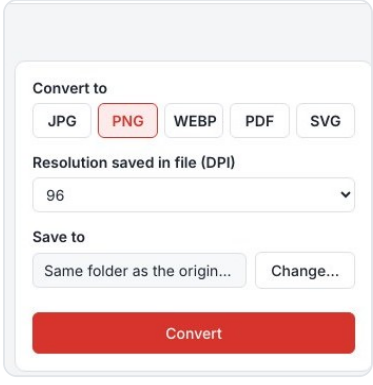

- Pixels, %, mm / cm / inch at any DPI
- Keep each file under a size, e.g. 200 KB
- Folder + all sub-folders, same structure
- Quality slider, smaller PNG, add “_resized”

IMAGE TOOLS

17 Image Converter

Any picture to any format.

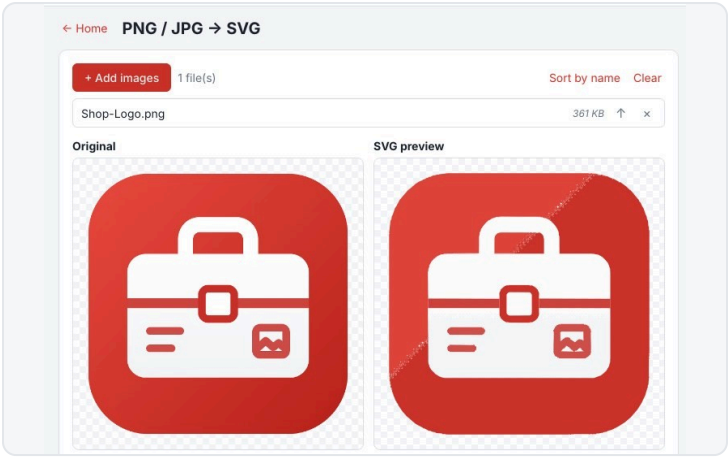

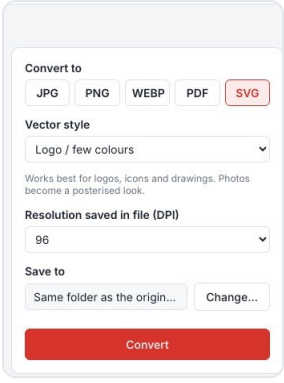

- From JPG, PNG, WEBP, JFIF, HEIC, BMP, GIF, SVG
- To JPG, PNG, WEBP, PDF or SVG
- Set the DPI saved in the file
- Hundreds of files at once

IMAGE TOOLS

18 PNG / JPG → SVG

Turn a logo into a vector.

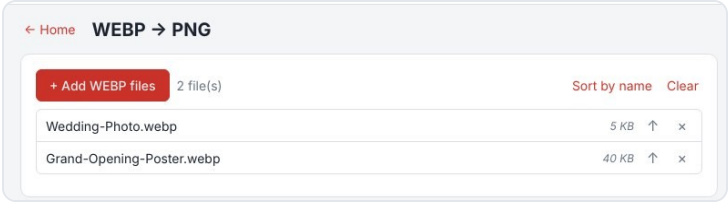

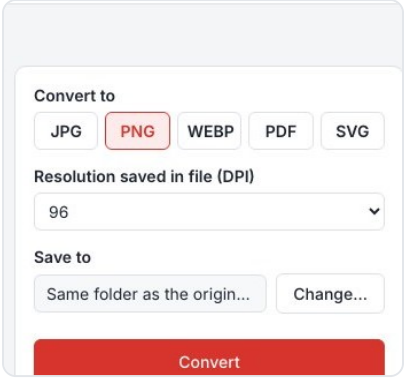

- Original and SVG side by side
- Styles: logo / few colours, drawing, photo
- SVG prints at any size without blur

IMAGE TOOLS

19 Quick converters & SVG Converter

One-click converters for common formats.

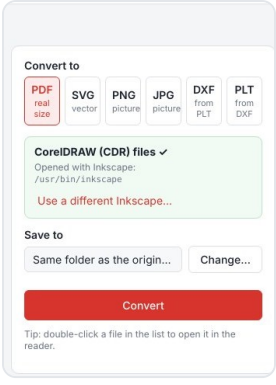

- WEBP → PNG, WEBP → JPG, JFIF → PNG
- HEIC (iPhone) → JPG, HEIC → PNG
- SVG → PNG, JPG, PDF or WEBP at any size

DESIGN FILES

20 CDR · PSD · PLT · DXF Converter

Open designs without CorelDRAW or Photoshop.

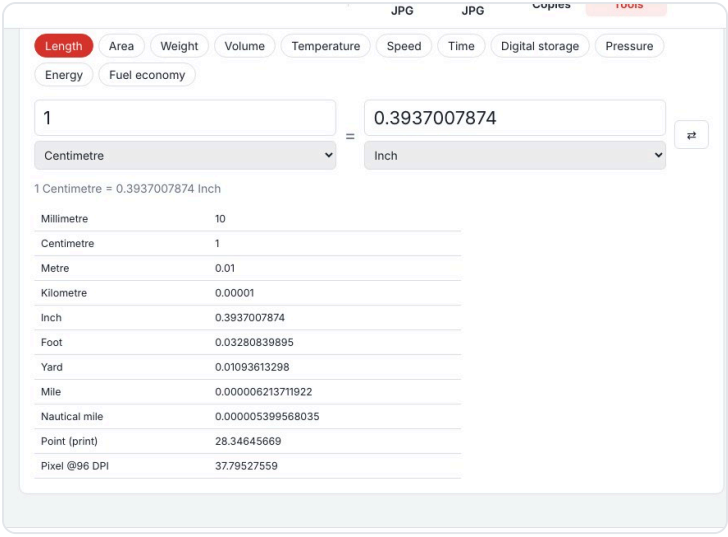

- CorelDRAW (CDR), Photoshop (PSD), cutter PLT, AutoCAD DXF
- Sharp, high-resolution preview with size
- Convert to PDF, SVG, PNG, JPG, DXF or PLT
- Many files at once

CONVERTERS

21 Unit Converter

Every unit, all results together.

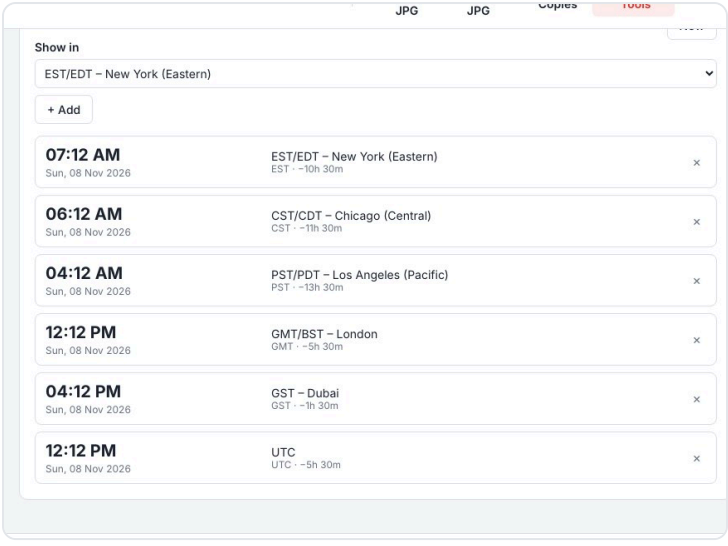

- Length, area, weight, volume, temperature, speed
- Time, data storage, pressure, energy, fuel
- Pixels at any DPI and printer’s points

CONVERTERS

22 Time Zone Converter

See the time in many cities together.

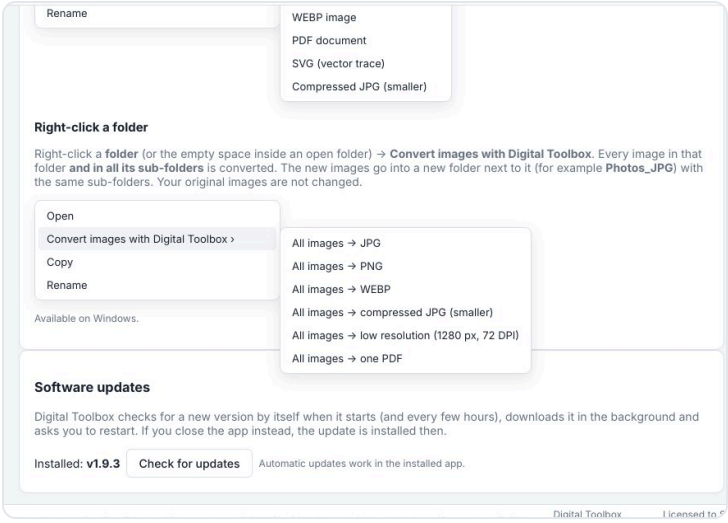

- IST, EST, CST, PST, GMT, Dubai, Singapore …
- Daylight saving handled automatically
- Add as many cities as you need

WINDOWS & UPDATES

23 Right-click convert & updates

Work straight from Windows Explorer.

- Right-click a file → Convert with Digital Toolbox
- Right-click a folder → convert every image inside
- All → JPG, PNG, WEBP, small JPG or one PDF
- Updates itself in the background
